

Richmond Gun Club

The inclement weather did not deter several members of the club, attending the shoot yesterday afternoon, and those present enjoyed the sport.

Hammond, Jr., an eighteen-year-old boy, had the honor of wiping the eye of some of the best shots in the club. William Pugh started the season with twenty-five straight, then Westcott equaled his score, but it remained for Hammond, Jr., to go twenty-five straight, with a run of thirty-nine, without a miss, being the longest run of the season.

The attendance yesterday demonstrates the fact that neither team nor stormy weather deters the members of the club from attending the shoot, and those who want to shoot will always find some one on the grounds to arrange for an evening's sport.

Shooting begins at 4 P. M. and all shooters are invited to be present.

The Scores.

Hammond, Jr.	25	50	75	10	5
Parker	25	47	69	88	58
Crenshaw	23	37	57	69	69

SALE FRESHMEN DEFEAT CLASS RIVALS FROM BROWN

New Haven, Conn., April 8.—Yale, 1911, won from its class rival of Brown University, 9 to 2, this afternoon. All the visitors runs came on passes by Glen, who walked four men in the sixth inning. Reynolds, the Brown right fielder, made a sensational one-handed running catch in the second inning, pulling down an opponent's home run. Brown the first Yale pitcher, let down the Brown freshmen without a hit in three innings.

DIRECTOR DAVE LEAVES ON ADVERTISING CAMPAIGN

Washington, April 8.—On a three-weeks' tour to discuss the Southern Commercial Congress's "five-year advertising campaign," which will cost \$100,000 a year, G. Groveson Dave, managing director of the congress, left today for Montgomery, Ala. From there he will be accompanied by Lieutenant-Governor Seed and J. S. Haas, members of the Alabama board of governors, on a visit to the cities of Alabama, after which he will go to Louisiana, where with Dr. Oscar Dowling, of the board of governors, he will tour that State.

RICHMOND ATHLETICS

P. M. Collier is manager of this fast bunch, and he expects to win the pennant in the Richmond Amateur Baseball League.

Baseball on Many Diamonds

[Special to The Times-Dispatch.]
Wilkesbarre, Pa., April 8.—The New York Yankees defeated the Wilkesbarre Barons in a game that took one hour and nineteen minutes by a score of 5 to 0. The Barons got as far as second, Quinn gave up one hit in the six innings he worked, and Ford finished the game on the mound without yielding another safe. The Yankees dominated out the victory in the first two innings off the delivery of McCloskey, and loaded the rest of the way. The Yankees played here again tomorrow and at Scranton on Monday.

The score by innings:
R. H. E.
Yankees.....1 6 0 0 0 0 0 5 1
Wilkesbarre.....0 0 0 0 0 0 0 1 2
Batteries—Quinn, Ford and Blair; McCloskey, Gird, Kutz and Proger, Empire, Wilkes.

Naval Academy Defeated

Annapolis, Md., April 8.—Perry's terrific hitting was the big factor in Pennsylvania State's victory over the Naval Academy this afternoon by the score of 30 to 1. State's big first baseman scored triples in the first two times at bat, and followed these with a couple of singles. Haddock also had a triple to his credit and Craig a double. The visitors also fielded without an error during

the first eight innings, and played headed ball on the bases, runs being scored twice on well-executed squeeze plays.

The score by innings:
R. H. E.
Pennsylvania State.....2 0 0 1 0 0 0 2 0 4
Naval Academy.....0 0 0 0 0 0 0 1 6 7
Batteries—Minnick, Piolet and Young; Anderson, Vison and Cockran.

Baltimore Defeats Cornell

Baltimore, Md., April 8.—The Baltimore Eastern League today defeated Cornell University 7 to 2. Rain stopped the game at the end of the seventh inning.

Snow-Storm Breaks up Game

Cleveland, O., April 8.—A snow-storm in the seventh inning ended the game this afternoon between the Cleveland second team and the Toledo American Association club with the score 3 to 2 at the end of the sixth inning in favor of Toledo.

Americans Lose to Nationals

Cincinnati, O., April 8.—The Nationals won the sixth game of the Inter-league series

from the Americans to-day 7 to 1. Manager Brodhan appeared in uniform for the first time this week, having recovered from an illness.

The score by innings:
R. H. E.
Nationals.....2 0 0 0 0 0 0 2 0 2
Americans.....1 0 0 0 0 0 0 1 7 2
Batteries—Salle and Barnham; O'Donnell, Poley, Hamilton and Corman.

One Hit for Chicago

Indianapolis, Ind., April 8.—Schlitzler and Schlitz pitched in remarkable form for Indianapolis to-day and let the Chicago Americans down with one hit, a single by Seiler, which brought in Chicago's only run, against four runs for the home team.

At Athens, Ga.—First game—University of Georgia, 2; Auburn, 1. Second game—University of Georgia, 3; Auburn, 0.

Games Postponed by Rain

Philadelphia, Pa., April 8.—The fifth game between the two Philadelphia major league baseball teams, scheduled for this afternoon, was postponed on account of rain.

The series stand three to one in favor of the Americans.

[Special to The Times-Dispatch.]

Lynchburg, Va., April 8.—The second game scheduled here with the Boston Nationals (regulars) today was cancelled on account of rain. The Doves left early tonight for Boston for the opening on Wednesday with Brooklyn.

Cincinnati, O., April 8.—Today's game between the Detroit Americans and the Cincinnati Nationals was prevented by rain.

At Washington—William and Mary vs. Catholic University—Postponed; wet grounds.

At Norfolk—Norfolk (Virginia League) vs. Albion, Pa.—Postponed; wet grounds.

At Petersburg—Petersburg (Virginia League) vs. Toronto (Eastern League)—Cancelled; rain.

At Blacksburg—V. P. I. vs. Hampton—Suspended on account of rain.

SOUTHSIDE TO GET NEW PARK

In less than thirty days the destruction of the old Third Police station, the old engine house and the Lumpkin house will be undertaken and the construction of Washington Park actually will be under way. At least, this is the belief of the Washington Ward delegation in the Council, who are pushing the matter as rapidly as possible, and now since the Building and Land Committee has ordered these buildings to be sold within thirty days, it seems entirely probable that the belief is correct.

Unfortunately the park committee will not have the full amount needed to carry out the plans for the new Southside park this year, but a good beginning will have been made by the time hot weather comes, and the finishing touches will be added next spring. The sum of \$150 has been appropriated for the work in Courthouse Square, and it is obvious that this sum is not sufficient for all that must be done. The proceeds from the sale of the three buildings on this square will swell the sum, however, and make it possible for the committee to work a vast improvement in the appearance of the square immediately.

The Royal Arch Chapter of Masons is waiting for the contents of the corner-stone box in the old police station, which was originally intended for a market and the corner-stone laid with Masonic rites. The box and contents will be preserved by them in their archives.

The police station and the Lumpkin house can be demolished much sooner than the engine house, as work on the latter must be delayed until the new engine-house at Tenth and Baldrige Streets is ready for occupancy.

LUELBA LAUNCHED

Pleasure Craft Owned by Mr. Baldwin Added to River Fleet.

The most recent addition to the fleet of pleasure boats on the James river at Richmond is the motor yacht "Luelba," owned by H. V. Baldwin, which was launched Friday morning in the basin. The "Luelba" is the second yacht owned by Mr. Baldwin, and is one of the most handsomely appointed pleasure boats on the river.

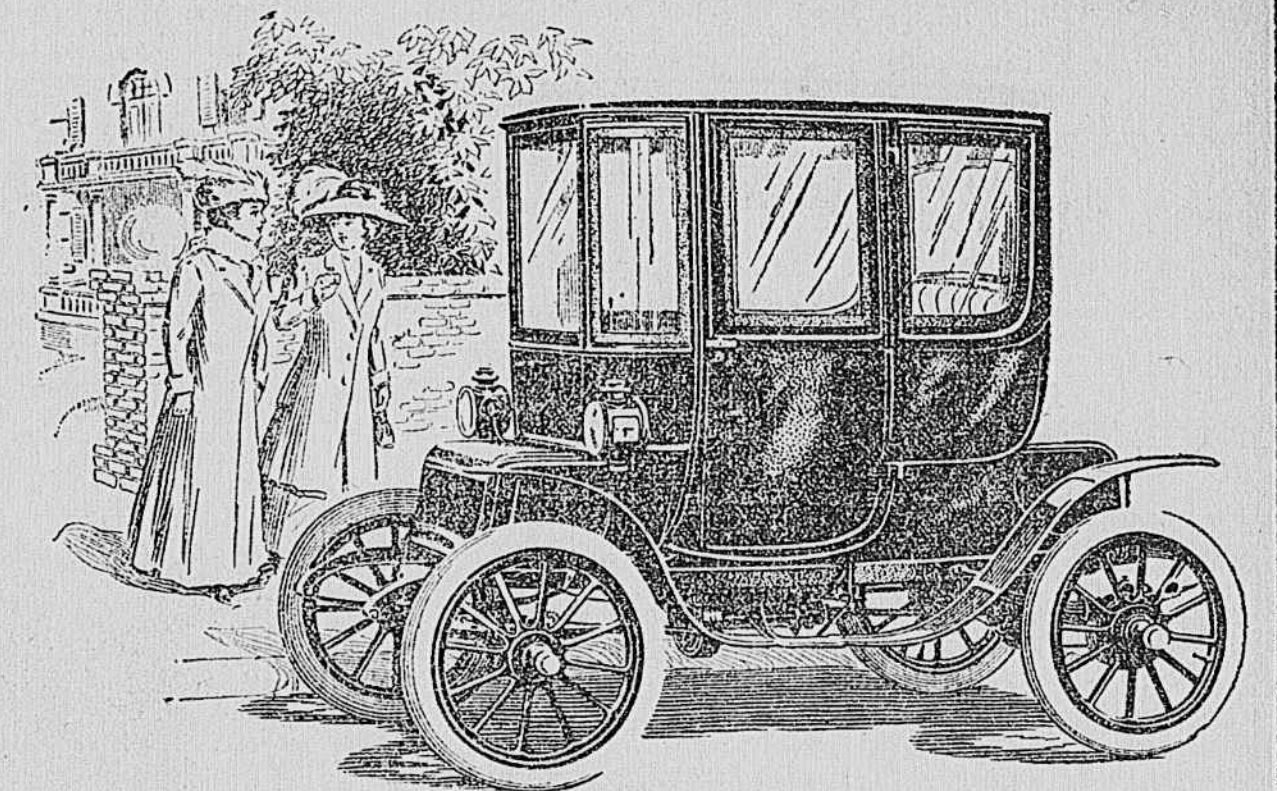

The "Luelba," which was built during the winter months by C. P. Broadrup, of South Richmond, has a length over all of fifty feet and a beam of eleven feet. It is equipped with every convenience for coastwise cruising, to which use it will be put by the owner. The cabin is walled with solid oak, built under the mainmast, with a finish and paneled. The windows are of thick plate glass to withstand the shock of the waves. In addition to a powerful twenty-seven-horsepower engine, the "Luelba" is fitted with electric lights and a strong searchlight.

At the Woodland Heights Baptist Church there will be three special services to-day. These will be anniversary services for the completion of the first year of the church organization. At the morning service the pastor will preach the anniversary sermon and a male quartet will sing. At the afternoon service, which will be held at 3:30 o'clock, addresses will be made by several of the city pastors and the children's choir will offer special singing. The evening service will be held at 8 o'clock. Rev. J. T. Watts will preach, and special solos will be rendered.

CAUGHT RED-HANDED

Negro Gamblers Indicted by Police, but Many Escaped.

Spotted red-handed with the "bones" on the floor and the money changing owners, more than a dozen negroes were raided last night by Officers Newman and Baughman while they were indulging in a Saturday night game of crap. Five of the rollers were captured—James Boyd, James Perry, Ben Balford, John Pryor and Doc Wool-

BAKER

The Pioneer Shaft Driven Electric

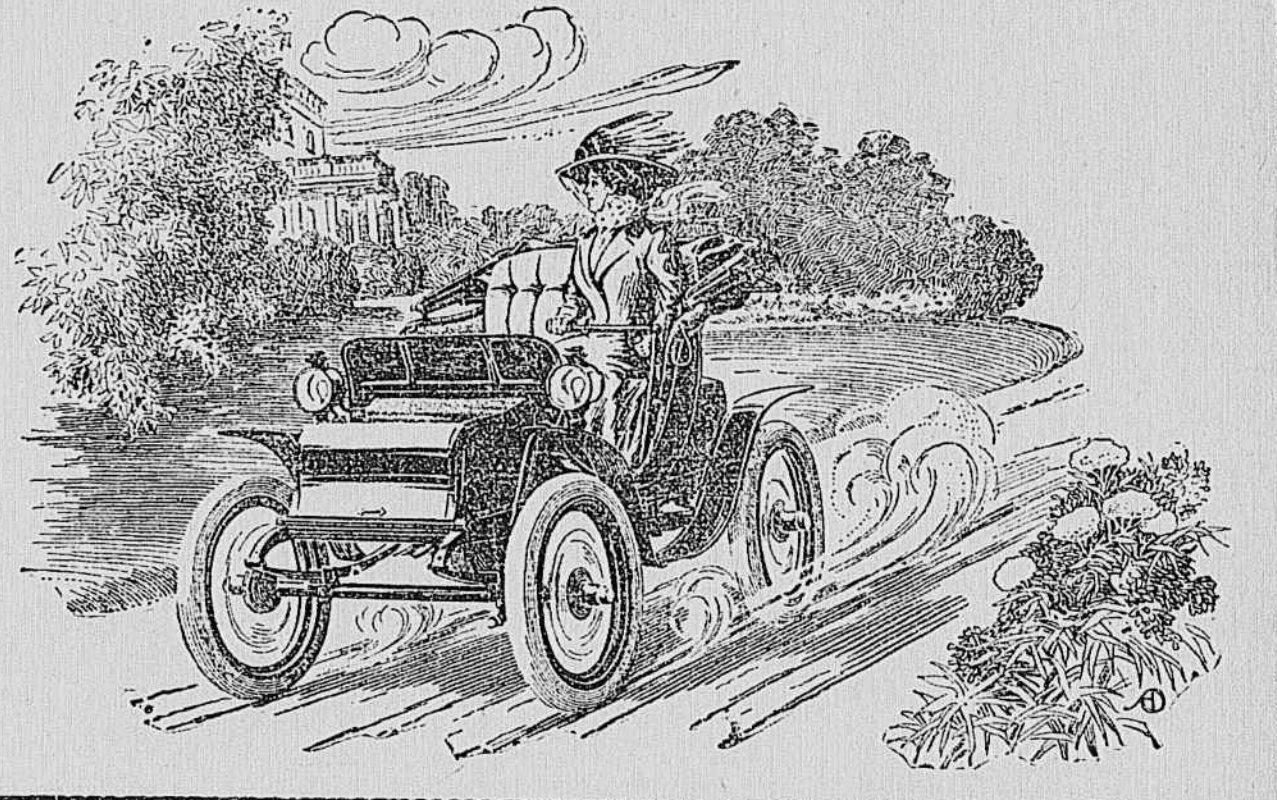

Eight years ago the Baker Company began the designing of SHAFT DRIVE in electric. Two years ago they perfected a SHAFT DRIVE which proved so superior in use to any chain drive invented that the latter was entirely abandoned. To-day the Baker Bevel Gear Shaft Drive is the only transmission in electric which is neither old-fashioned nor experimental. Baker Shaft Driven Electrics are a pronounced success in Richmond. There is more care attached to the chains on electrics using that kind of transmission than is required to keep an entire Baker car in good running order, and there is no rattle.

Nothing is good or bad except by comparison

Compare any electric vehicle made by the BAKER. You CAN'T COMPARE THE BAKER WITH ANY OTHER ELECTRIC, because it is proven to be the STANDARD ELECTRIC OF THE WORLD. Twenty-two stock models, or built to your specifications—any size, any style, pneumatic or solid tires, and either Exide, IRONCLAD or Edison battery.

Full particulars and demonstration upon request. Telephone Madison 7060.

The Worth Electric Vehicle Company, Inc.

ridge—and these will face Justice Maurio in the Police Court, Part 2, tomorrow morning.

Formal notification has been issued from police headquarters that unless the 100 dog owners in the Southside who have failed to pay the dog tax required by law do so immediately, the patrolmen will make a systematic tour of the ward and arrest all delinquents. In addition to being forced to take out the dog license, the delinquents will have a fine imposed on them in the Police Court. It is stated that the arrest of delinquents will begin this week.

The time is approaching when the ordinance providing the muzzling of all dogs will go into effect, as is the case every spring, so the dog owners through the Southside will be wise to purchase a dog's cage when the time comes and muzzle their dogs.

Red Men to Celebrate

Indianola Tribe of Red Men is making plans for a genuine, bang-up celebration of its thirty-second anniversary, which will fall the latter part

of this month. The Indianola Tribe was founded at Manchester in 1879, and has been in a flourishing condition ever since. In addition to a royal feast, with speeches and plenty of merriment, the Red Men will mark their birthday by a class adoption of twenty palefaces. This tribe is to take an active part in the entertainment of the grand lodge, which meets in Richmond during the month of May.

The negroes had been in jail here since January 2, on which date Newton Eason, a white man, carried them to the outskirts of the town, hanged them to trees and riddled their swinging bodies with bullets. The victims of the mob were Dawson Jordan, Charlie Pickett and Murray Burton.

The negroes had been in jail here since January 2, on which date Newton Eason was killed in the store, and that he was creating a disturbance when he came to his death. There was no evidence directly connecting the negroes lynch-

HOW ROCKEFELLER GUARDSTREASURE

Secret of His Hiding Place for Wealth Finally Revealed.

New York, April 8.—The long and closely-guarded secret as to where John D. Rockefeller preserved his stacks of stocks and bonds has been disclosed at last. The bulk of his immense treasure, estimated at \$200,000,000, reposes in a specially constructed bomb, burglar and fireproof vault, built under the northeast corner of the New York Produce Exchange. Entrance to it is gained from Beaver Street, a stone's throw from the Standard Oil headquarters at 25 Broadway.

Between the street outside and the recesses of the Rockefeller sanctuaries are ten locks, varied in character. Three men are required to open the various locks, several of which are combinations. The interior of the vault is nine feet wide, nine feet high and fifteen feet deep. The wall of the vault has a thickness of forty inches. In the center of thirty-six inches of concrete are ninety-round steel rails, set six inches apart in double rows, interlocked so as to be practically one solid mass. The remaining four inches of the wall are four one-inch thickness of solid steel.

From fifteen to twenty of these, varying in size, two combination locks guard each chest. Inside these chests are small sheet steel boxes of a thickness of one-sixteenth of an inch. There are four of these as a rule in each chest. They are equipped with a hinge lid and key box. The last turn of the key opens one of the sheet steel boxes.

In one of these inner inside compartments is a card index, which registers the bonds, with their dates of maturity and the months when the coupons come off.

Killed in Mine Accident.
[Special to The Times-Dispatch.]
Pocahontas, Va., April 8.—Sander Kall and C. Bilo, were instantly killed here to-day in the mines of the Big Vein. Pocahontas Coal Company by a fall of slate, and Steve Rodie will die from injuries received.

THREE NEGROES HANGED AND BODIES RUDDLED
[Special to The Times-Dispatch.]
Elmville, Ok., April 8.—A mob of masked men entered the jail here at 3 o'clock this morning, secured three

5 Passenger - \$1,750

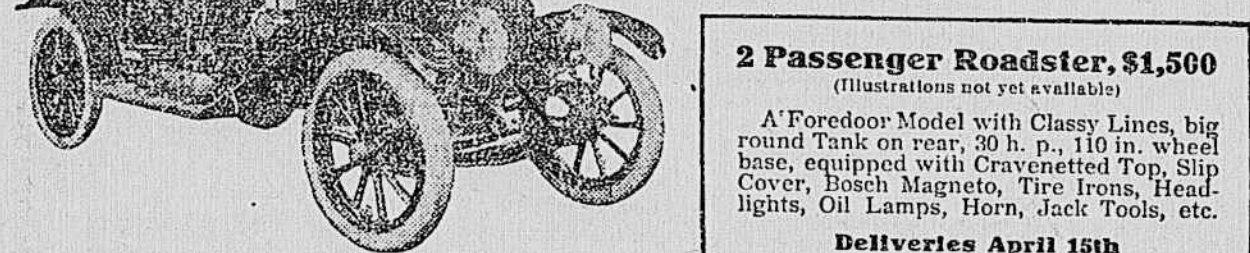

Equipped with Top, Slip Cover, Windshield, Bosch Magneto, Tire Irons, Prest-O-Lite Tank, Head-Lights, Oil Lamps, Horn, Jack, Tools, etc.

The verdict of unbiased automobile men who have examined the chassis of the Primo and who have carefully looked over our body designs, is that we have a car of beautiful design, powered with a plant that will run and keep running. They tell us that we are to be congratulated on having demonstrated that a Southern concern can produce a car equal to those made in the eastern and middle west auto-manufacturing centres.

We built the Primo to anticipate Southern conditions; to travel smoothly over rough, hilly country and give a maximum of service at a minimum price. It is the car of correct proportions to operate at the lowest up-keep expense. Every moving part of the Unit Power Plant is encased, yet easily accessible, even the valves, and no engine pan is used or required. It is equipped with Bosch High Tension Magneto, Schebler Carbureter, Multiple Disc Clutch, Shaft Drive, etc.

4 Passenger - \$1,600

Equipped with Top, Slip Cover, Windshield, Bosch Magneto, Tire Irons, Prest-O-Lite Tank, Head-Lights, Oil Lamps, Horn, Jack, Tools, etc.

2 Passenger Roadster, \$1,500

(Illustrations not yet available)

A Fore-door Model with Classy Lines, big round Tank on rear, 30 h. p., 110 in. wheel base, equipped with Cravenetted Top, Slip Cover, Bosch Magneto, Tire Irons, Head-lights, Oil Lamps, Horn, Jack Tools, etc.

We are backed by ample capital and a progressive management, and contemplate the establishment of Branches throughout the entire country—unless we can secure satisfactory State Agency contracts.

Our proposition to those financially able to handle our contract for their State is unusually attractive, and we invite correspondence with concerns now in the Automobile business, or who will consider entering it, with reference to taking hold of our agency, appointing sub-agents, etc.

The contracts we offer will be from acceptance to August 1st, 1912, giving you ample time in which to work up satisfactory connections throughout your territory. This season we will market three models, and August 1st next we will announce our 1912 models, embracing a line complete in every particular—one that cannot help but make you money.
